**Edan  
H100B Pulse Oximeter**

The H100B Pulse Oximeter provides a simple universal tool for patient monitoring from spot checks to continuous monitoring. All monitoring data can be transferred to PC for storage, management, review and printing.

Includes:

- Adult Sensor
- 4 x AA Batteries
- Carrying Case
- User Manual
- Quick Reference Card

122-H100B

**Dynarex  
Pediatric Fingertip  
Pulse Oximeter**

0.2" - 0.75" (5mm - 19mm)

VM7090

**Dynarex  
Adult Fingertip Pulse  
Oximeter**

- Unbeatable accuracy - clinically tested
- Drop tested durable and moisture proof
- Simple one button operation
- 7088 - Suitable for finger thickness.

37" - .86" (9.5mm - 21.9mm)

VMD36400

**O-Two Systems Finger Tip Pulse Oximeter**

The O-Two Systems Finger Tip Pulse Oximeter is designed for use in a wide range of environments from pre-hospital emergency to hospitals and home health care.

- Measurement of SpO2 and heart rate
- Dual color OLED display
- Numeric display of SpO2 and Heart Rate
- Pulse Bar and Plethysmogram displays
- Multiple display modes
- Switchable display orientation
- Adjustable brightness levels
- "Finger out" visual warning
- Pediatric to adult sizes
- Automatic power off when not used for >10 seconds
- Not affected by movement artifact
- Low power consumption (up to 30 hours continuous operation)
- Compact, lightweight design
- Easy and convenient to operate and carry
- Lightweight carrying case
- Lanyard supplied

O2-01MN1000

**OMRON**

## Omron 5 Series Wireless Upper Arm Blood Pressure Monitor

- Measures five times more data points for consistent, precise blood pressure readings less affected by any breathing or movements during measurement
  - Hypertension Indicator: displays a HIGH symbol if your systolic (upper) measurement reaches 130 mmHg or above, and/or if your diastolic (lower) measurement reaches 80 mmHg or above
  - Advanced Averaging: automatically displays the average of up to the last three readings taken within the last 10 minutes
  - Irregular Heartbeat Symbol: alerts you to the number of irregular heartbeats (up to 3) while your blood pressure is being measured
  - Wide-Range D-Ring Cuff: is designed for a more comfortable measurement; fits arms 9" to 17" (22-42 cm) in circumference
  - Unit operates on 4 AA batteries (included) and AC Adapter (not included)
  - Wireless Bluetooth
- [OMRON-BP7250](#)

## Ambulatory 24 Hour Blood Pressure Monitor

The Edan ABPM SA-10 is a 24-hour ambulatory blood pressure monitor with stylish design, intelligent software, state-of-the-art blood pressure monitoring technologies, developed to avoid white coat hypertension, masked hypertension and sustained hypertension. With the help of SA-10's powerful analysis software, clinicians will manage patients' cardiovascular risks with ease and make clinical decisions with confidence.

- Includes 3 cuffs (small, medium and large)
- Lightweight, compact and quite for better patients compliance
- Large blood pressure measurement range from 10mmHg to 290mmHg
- Proprietary algorithm with excellent motion resistance performance
- Data protection from power outage
- Auto re-measurement on failed measurement attempt

### Littmann Classic III Stethoscope

- Monitor and assess a wide range of patients
- Single-piece tunable diaphragm is easy to attach, and easier to clean because its surface is smooth without crevices
- Pediatric side converts to a traditional open bell by replacing the single-piece diaphragm with a non-chill rim
- Next-generation tubing provides longer life due to improved resistance to skin oils and alcohol
- Stainless steel chestpiece is precision-machined into an aesthetically pleasing, less angular shape; the stem features open side indicator
- Snap-tight eartips have a soft, smooth surface providing a comfortable acoustic seal and comfortable fit
- Not made with natural rubber latex or phthalate plasticizers

**Flight  
Clave 8 Plus Autoclave**

209-A900-8

The Clave8+ chamber type autoclave is a Class S steam sterilizer that utilizes a state-of-the-art steam pulsing technology. The Clave8+ uses a pressure displacement technology that allows a more complete removal of air inside the chamber before the sterilization cycle begins.

- Easily accessible and easy to fill
- Water Level Sensor.
- Capacity to run 5-6 Cycles Before Adding water
- Fast Sterilization Cycles – 12 Minutes Unwrapped Flash Cycle.
- 5 Programmed Sterilizations Cycles: Flash/Unwrapped, Wrapped, Liquid, Textile, Prions.
- Independent Steam Generator for positive pressure displacement dynamic pulsating steam injection.
- HEPA Filter to ensure clean air into chamber

**Flight  
Autoclave Clave45+**

209-A9007-45

The Clave45+ Large Capacity Steam Sterilizer is a 45L unit designed with the versatility of two racking system options.

- Class S Steam Sterilizer.
- Fast Sterilization Cycles – Complete Wrapped 134°C Cycle in 70 minutes.
- Integrated Reservoirs – Includes both distilled water and waste water reservoirs.
- Five Pre-programmed Sterilization Cycles – Options for Unwrapped, Wrapped, Liquid, Prions, and Drying Only.
- HEPA Filtration – Ensures only clean air enters the chamber
- Dry-Assist Technology – Provides rapid drying with post-vacuum functionality.
- Built-in Printer – Included for convenient record-keeping.
- Versatile Use – Ideal for labs, dental, medical, veterinary, and food processing facilities.

**Tuttnauer  
3870EAP Large Capacity  
Fully Automatic Autoclave**

- Features a closed door active drying system.
- Closed door active drying system to maintain sterility and ensure efficient drying of packs and pouches.
- Hepa filter 0.2 µm air filter (replaceable).
- Rapid cycles optimize the availability of ready-to-use sterile instruments Easy-to-use, single touch control system increases productivity
- 15"x 30" chamber accommodates longer instruments or a large number of small instruments.
- Perfect for multi-doctor practices, clinics or surgery centers.
- Printer installed

TUTT3870EAP

## enbio.

### Enbio S Class B Autoclave

- The Enbio S autoclave is the smallest, fastest, and most compact Class B sterilizer on the North American market.
- Superfast sterilization, up to 4 times faster\*
- Perfectly dry pouches in 15 minutes
- Unwrapped cycle time of 7 minutes
- 6 times smaller and 3 times lighter\*
- Simple operation
- Inaudibly silent
- Enbio works with any typical electrical outlet
- All process data are automatically written to a USB stick
- Dedicated software for process data reading and printing

### Hydrim C61w G4 Instrument Washer

- Countertop or under the counter, steri-center installation.
- G4 web portal includes data storage, service logs and remote access capabilities
- Validated cycles to ensure repeatable washing performance
- Improved serviceability, reliability and minimal maintenance requirements
- Vivid color touch screen
- Robust stainless steel exterior
- USB port for data storage
- Active hot air drying
- Manufactured in Canada

[SCI-G4-621101](#)

### Hydrim L110w G4 Instrument Washer

- Under counter steri-center installation, but can also be a freestanding unit
- G4 web portal interface includes data storage, service logs and remote access capabilities
- Validated cycles to ensure repeatable washing performance
- Ten 8" x 11" IMS cassette capacity
- USB port for data storage
- Robust stainless steel exterior includes pump for liquid detergent
- Web based documentation software included "no installation required"
- Active hot air drying
- Manufactured in Canada

## Biological Incubators

- Compact design
- 20 Minute & 1 hour process times can be used simultaneously
- Incubate indicators simultaneously, with different incubation times, at the same temperature
- Ease of use
- Thermal printer
- USB connection with free software download
- One BI and reader can be used in both gravity and pre/post vacuum sterilizers

## Bionova Incubator

- Optimization of incubation times
- 12 Incubation slots

TUTT-WTL198-0079

## MiniBio Incubator

- Compact design
- Incubate 3 indicators simultaneously, with different incubation times, at the same temperature

TUTT-WTL198-0057

## MiniBio Incubator Startup Kit

- MiniBio Incubator with printer
- 1 box/50 20-Minute Biological Indicators,
- 1 package of Multi-Variable Chemical Indicators

TUTTWT21Q1PROMO

## Biological Indicators

- Can be used in gravity or pre/post vacuum autoclave steam sterilization cycles

## Rapid 1 hour Biological Indicator

- 50/box

TUTT-WTL198-0058

## Ultra-Rapid 20 minute Biological Indicator

- 50/box

TUTT-WTL198-0072

## Smart-Read EZ Test® 10 Hour Biological Monitoring

The Smart-Read EZTest® uses a real biological indicator (BI), with no added enzyme or chemical integrator, which is incubated, evaluated, and documented in one simple automated operation.

Relying only upon bacterial spore growth, the Smart-Read system can detect sterilization failure in as few as three to five hours, and negative results can be confirmed with an additional five hours of incubation (10 hours total).

[IN4140-SWI-1710](#)

## Smart-Read EZ Test® 10 Hour Biological Vials

- Fast biological results
- True biological system
- Easy one-step evaluation
- Automatic documentation
- Alarm on sterilization failure
- 100% verifiable results

[IN4140-SEZS/5](#)

## ValueTest™ 24 Hour Biological Monitoring System Incubator

The ValueTest 24 hour biological incubator can be used with most 24 hour biological indicators, including our ValueTest Biologicals!

[VM24INC](#)

## ValueTest™ 24 Hour Biological Indicators

Self-Contained Biological Indicators (BIs) are approved for use in gravity, prevacuum, and flash cycles. The ValueTest Biological Indicators contain *Geobacillus Stearothermophilus* spore as a standard for autoclave testing.
