

Valuemed Professional TEETH WHITENING KITS

Custom Imprinting Order Form

If you would like to imprint your teeth whitening kits, please fill out all of the fields on both pages. Attach the document in an e-mail along with any logos or images and send it to your sales representative or to our customer service team at sales@valuemed.ca. Once we have received your custom imprinting order form & images, someone will contact you within 2 business days to verify your order.

Yes, I am supplying logo or artwork

No, I am not supplying logo or artwork

Please email your digital artwork
& completed order form to:
sales@valuemed.ca

See second page for available
customization options.

Logo & Artwork Guidelines:

If you would like to submit your own logo, artwork, or photo, the file must be provided in the proper format. Vector and raster based files such as .ai, .eps, .pdf, .psd, .tiff, and .jpg formats with a resolution of 300 dpi are accepted. Print quality for images under 300 dpi is not guaranteed. Please note that artwork colours may appear slightly different as a result of different monitor calibrations. For best results, insert pictures or photos should be 2.5" (w) x 1.7" (h) and 300 dpi.

What happens after you send us this form?

If you're ordering for the first time or your logo/info has changed, we will supply you with a proof of artwork for your approval before printing your kits. Once you approve the final artwork, we will place your custom imprint order. If we've created artwork for you previously and you chose to use that, we will place your order immediately. Print time, assembly of kits, and shipping time is an average of 2-3 weeks.

All custom imprinted whitening kit orders are final sale only.
