Valuemed Team Spotlight on Nancy Norris

How long have you been at Valuemed?

I became part of an incredible team at Valuemed on February 1st 2024.

What is your role?

In my role of team lead for Ontario, I lead and motivate

a team of sales professionals to ensure they have the tools and knowledge to be successful. We are growing across the country to give VALUE to our customers. I am excited to expand the Ontario dental sales team and be able to bring cost saving to our dental offices that we service.

What is your background?

I started in the dental world at 15, working for my family dentist in the summer and I knew that this profession was for me. I have worn many hats over the last 44 years in this industry, but the best hat is when I get to help, create, and mentor someone to be a better them, to show them a different maybe cost effect way to achieve their goals.

What's your favorite part about this job?

I love the dental industry, everyday is a new adventure and a chance to learn something exciting. Valuemed is not new to dental, they have been in business a long time and I am honored to help with the expanded growth across Canada. I am excited to see where we can flourish from here.

What hobbies do you enjoy?

Well, it's a hard coin toss to answer this one. My passion is my family and I enjoy my 5 granddaughters as much as I can. The water has a calming effect and I feel connected and blessed living close to the water. I love to volunteer, and I am on a few committees that help give to people that are in need.

ACERO CROWNS

Why Acero Pediatric Crowns?

Trusted, esthetic and affordable dental crowns endorsed by top dentists for making your kid's perfect smile last forever.

Acero Crowns are crafted from surgical-grade 316L stainless steel more resistant to corrosion and wear than 304 stainless steel used by competitors. The crowns are preformed and pre-contoured (or commonly referred to as "pre-crimped") with a shallow occlusal anatomy to preserve healthy tooth structure with less tooth reduction.

- Half the price of other leading brands
- Laser-etched sizes (autoclave-proof=less waste!)
- Surgical-grade 316L U.S stainless steel
- 100% compatible and interchangeable with the leading brands
- Preformed and pre-contoured to prevent microgaps
